

# Plants for dogs

## and pollinators

Providing for wildlife and your four-legged friends in the garden is easy and rewarding. Dogs have an excellent sense of smell and the garden can be a stimulating environment for them. Herbs are perfect for your dog to sniff and when in flower for pollinators and beneficial insects too.

Herbs are easy to grow in in raised beds, borders, and containers.

The following plants are beneficial to both pollinators and safe for your dog:

- Basil
- Calendula
- Cornflower
- Dill
- Fennel
- Rosemary
- Sage
- Sunflower

### Did You Know?

A dog's sense of smell is around 10,000 - 100,000 times better than humans.

*While these plants are suitable for dog friendly gardens, they made not be suitable for other animals sharing the garden.*
